Feeding Systems for Bulk Components

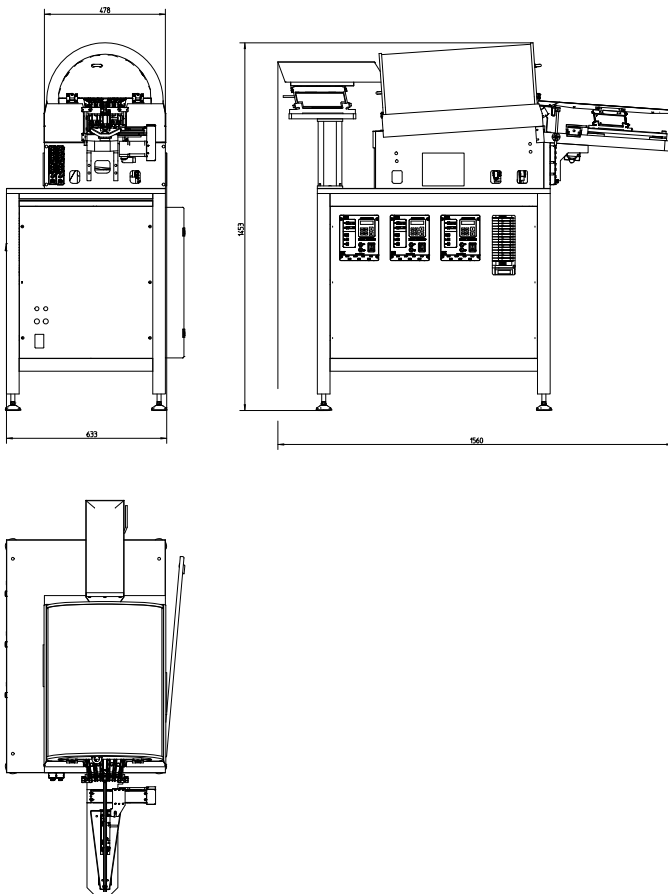

Drum feeder

Approvals: 

71

7140

Features

Application

- Feeding of bulk goods with dimensions of e.g. 0.3 mm x 3 mm x 8 mm or bigger
- Workpiece-specific
- For output rates of approx. 100–1,000 pieces/min
- Especially suitable for components which are difficult to feed due to their geometry, e.g. pressure springs
- Optimized to the workpiece geometry and preferred performance parameters
- Output in correct positional arrangement
- High output combined with compact, space-saving design

Dimensions and supply data

| | |
|------------------------|----------------------------|
| Dimensions (H x W x D) | 1453 mm x 1560 mm x 633 mm |
| Weight | 235 kg |
| Electrical supply | 230 V AC |
| Compressed air supply | 6 bar |
